Eve a simple Event Scheduler

George Salteris

Login page

When you first Open the App(EVE) tou go to login page :

- If you already have an account you simply just login

- If you don't have an account you press the create one button

Home page

When you have successfully login into the app you go to the home page , where you have several options

1. All Events
   - Where you find all the available events
2. Calendar
   - Where you can find all the events in calendar mode

3. Profile
   - Where you can see your profile information
4. My Events(Coming soon)
   - Here you can find the events in which you have take part
5. At the bottom of the page if you press the add button you can put your own event
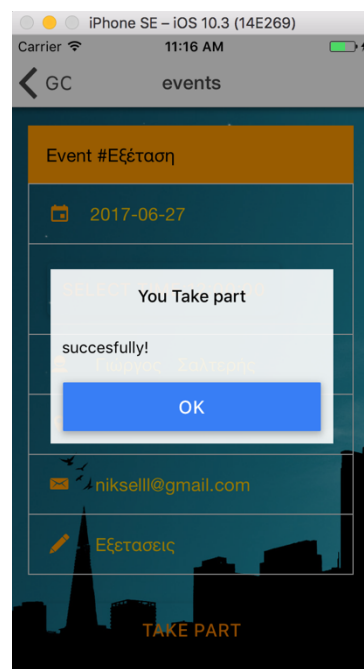

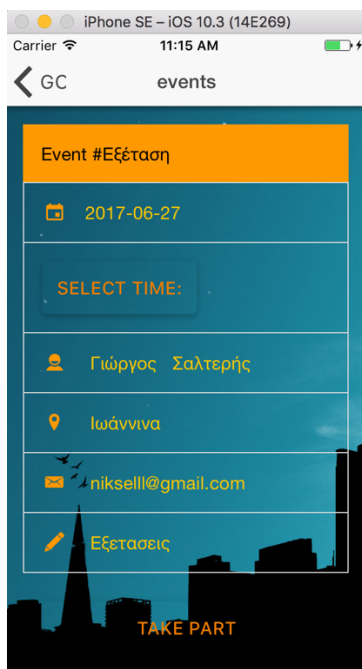

All Events

Here you can see all the events By Date and Name if an event take place in more tha one day then you see the same event multiple dates

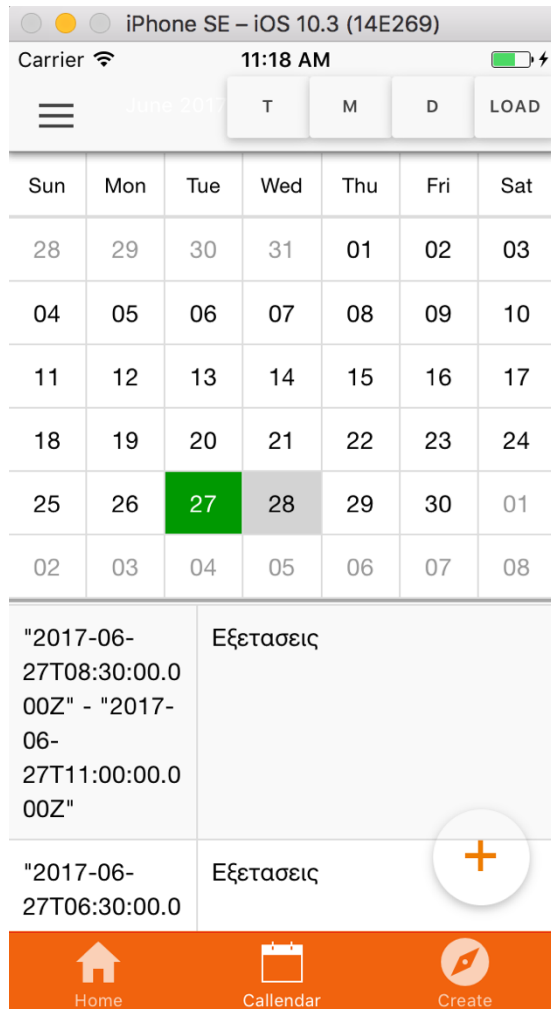

If you then click on one Event you see futher Informations and you can choose a time in which you want to take part and if its available tou take part at the event
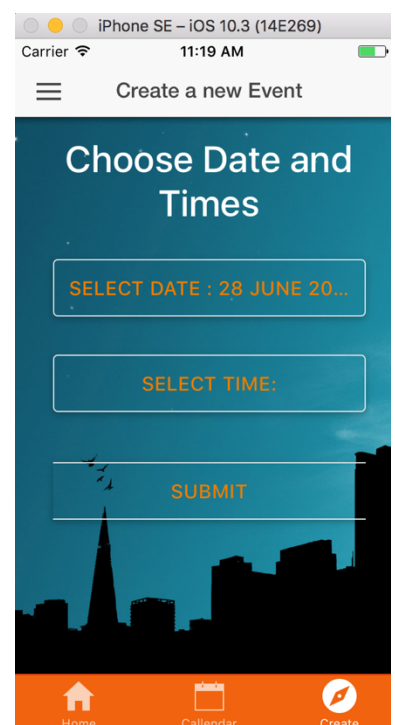

Calendar

Here you find your events in calendar mode and if you select your desire date then you see all the availables events

Add new Event

You can add your own events

- First you select the desire Date
- And then multiples or single times and you click submit

Then you go to a new page in which you can add the rest details and create
Your event
